

MECHANICAL HANDS-FREE ROLL TOWEL DISPENSER INSTRUCTIONS

MOUNTING INSTRUCTIONS

The user is responsible for proper installation and use of this dispenser. For best results, mount the dispenser level and on a flat surface.

Equipment needed:

Measuring Tape

Level

Screwdriver

Eye Protection

Pencil

Drill and Drill Bit

Assemble appropriate fasteners (screws, bolts, anchors, washers, etc.) for mounting.

1. Position the unit on wall with front cover open. Use a pencil to mark mounting locations through the holes on the back of the unit. Make sure unit is level before marking holes.

WARNING: Proper function of this dispenser requires level mounting. Use mounting holes closest to the outer edges for best results.

2. Drill the marked spots on the wall with an appropriate sized drill bit for the wall material and mounting hardware.
3. To complete the installation, use mounting hardware appropriate for the wall on which the dispenser will be mounted. A flat washer should be used between the head of the fastener and the inside of the dispenser.

PAPER LOADING

1. Open cover and place paper roll onto roll holders
2. Orient so that paper is hanging off the back of the roll
3. Pinch paper between two rollers by manually lifting and rotating the roller furthest toward the rear of unit
4. Close the front cover and turn the knob counter-clockwise until paper dispenses from unit

USING THE DISPENSER

Once the paper is loaded, simply pull the exposed sheet from the dispenser. Another sheet should automatically take its place once removed.

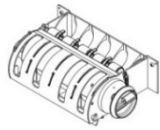

TROUBLESHOOTING

Most problems can be corrected by turning the knob counter-clockwise until a new sheet appears. If this does not correct the issue, completely remove the roll towel and re-load. If problems persist, contact RedDot Brands at 844.788.9564 or support@reddotbrands.com
