

Automated Roll Towel Dispenser with 7" LCD Screen

Incorporating video into your dispensers is a great way to get and keep customer attention! Use them to tell your own story or monetize to generate ad revenue.

Each LCD screen will be pre-loaded with a video guide to walk users through the setup process.

- **Video Length Recommendation:**
15-60 seconds.
- **Internal Size Memory:**
Standard internal memory is approximately 100MB. Video and graphic files can be easily compressed to this size.
- **Updating Video Content:**
Internal memory is updated via USB thumb drive. Once properly formatted, the thumb drive will recognize new content and automatically update the screen.
- **Distribution of Content:**
Customer can distribute thumb drives with content updates or upload their content to a website for users to download and copy to their thumb drives.
- **Delay Between Video Activations:**
5 seconds with black standby screen between activations.
- **Are Multiple Videos Possible on the LCD Screens?**
Yes, this function is possible. The first activation will start the first video. The next person who activates would see the second video, and so on. *(This custom option needs to be specially requested)*
- **LCD Specifications:**
Resolution: 800 x 480
File Type: AVI with XviD codec
Audio Codec: MP3
Power: AC Adapter
Sensor: Motion Activated
Power: Battery-Free for Continuous Operation
(Requires electrical wiring to operate)
